

# RIPPLE

RIPPLE; Research Informed Practice, Professional Learning and Evidence, embodies the belief that education should be grounded in evidence-based approaches and a commitment to continuous professional growth. By staying up to date with the latest research and engaging in discussions, you have the chance to make a real impact on student outcomes and drive positive change in the field of education.

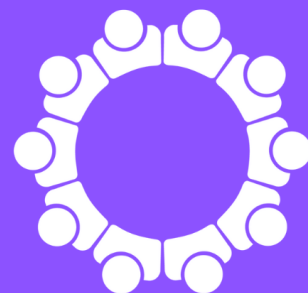

The RIPPLE network provides an informal platform for colleagues, like yourself, to stay up to date on the latest research, engage in meaningful discussions, and share valuable resources with colleagues. But it's more than just a network - it's an opportunity to enhance your professional development and promote evidence-informed practice within your schools. By joining RIPPLE, you will have the chance to receive regular updates and new releases, engage with thought-provoking think pieces, and collaborate with a community of like-minded educators.
